

ATCEM

Alaska Tribal Conference on Environmental Management
November 15-19, 2021 | atcemak.com

Environmental Excellence Awards Nomination Form

Deadline to submit nominations is 5pm on October 22nd, 2021

ATCEM Awards

Every year at ATCEM we present Environmental Excellence Awards to recognize the hard work performed every day for preserving our environment for future generations. This year, we will recognize the many faces of Environmental Excellence in Alaska for the following categories:

- **Rising Star Award** – For an individual who is just getting started in the tribal environmental field, but shows great promise to be an up and coming environmental leader in their community.
- **Environmental Leader Award** – For an established tribal environmental professional who demonstrates outstanding motivation and leadership with environmental projects in their community.
- **Lifetime Achievement Award** – For an individual who has made long-lasting environmental contributions that improve environmental health in their community over the course many years. This individual is a true inspiration and deserving of the highest honor.
- **Helping Hands Award** – For an individual, team, or organization that has provided exceptional services to support environmental projects in tribal communities.
- **Community Group Award** – For a group or a team that has demonstrated outstanding environmental leadership in their community and has worked together to improve their local environment.

Special Category Awards

These awards are presented by ANTHC-affiliated organizations/groups who wish to recognize contributions to specific environmental topics at ATCEM. Special Category Awards will be presented separately from the ATCEM Awards, by the organization sponsoring the award.

- **SWAT Rockstar Individual (Presented by the Solid Waste Alaska Taskforce)** – For an individual who has been instrumental in their community's waste management progress. This can be a bookkeeper, an elder, a city manager, IGAP staff, a volunteer, a landfill worker, a youth leader, etc. Is the community's solid waste situation better today because of this person? Then they are a Rockstar and eligible to receive this award.
- **SWAT Rockstar Community/Organization (Presented by SWAT)** – For a community, organization, or group of people that has had great success with managing waste or recycling. They have demonstrated outstanding leadership in local waste management and they are a model that others will want to follow.

****All award nominations will be reviewed by an Anonymous Selection Committee.****

How to submit a nomination:

- Complete nomination form.
- Submit electronically by email to atcem@anthc.org
- There are no limits to the number of nominations you may make.

Awards will be presented virtually throughout the conference week.
